The game uses a brand new concept for a Super Nintendo game, AKIBA'S TRIP! It is designed for the Super Nintendo, but has been translated to the Core Memory of the Satellaview, so you can play it anywhere you want. It has a unique concept that, unlike regular puzzle games, has action that can be performed by simply walking to the correct direction. The game lets you change the setting to have monsters appear, such as "Tintore" and "Dumotan." Players can complete "Duel Dungeon" by using random items from shops. RE bff6bb2d33
